2. CONTINUING CONNECTED TRANSACTIONS AND DISCLOSEABLE TRANSACTIONS IN RELATION TO SUPPLEMENTAL FINANCE LEASE FRAMEWORK AGREEMENT

According to the Finance Lease Framework Agreement, BEH and/or its associates agreed to provide financial lease services, including direct leasing services, to the Group. The annual caps for the transactions under the Finance Lease Framework Agreement for the three years ending 31 December 2022 were previously set at RMB450 million per year (the “**Existing Caps**”).

Considering the current business needs of the Company for direct leasing services, the Company expects that the Existing Caps will not be sufficient. On 28 September 2021, the Company entered into the Supplemental Agreement to revise the Existing Caps.

LETTER FROM THE BOARD

(1) The Supplemental Agreement

The principal amendments pursuant to the Supplemental Agreement on the Finance Lease Framework Agreement are summarized as follows:

Finance lease services: **Direct leasing**

Pursuant to the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), in respect of the direct leasing service, as requested or instructed by the Group, BEH and/or its associates will provide financial leasing solutions to the Group for the purchase of equipment. BEH and/or its associates will make the payment for the equipment to the suppliers in accordance with the conditions set by the Group and charge the Group with the lease rental for such equipment according to the schedule.

Pursuant to the Supplemental Agreement, when the leasing period expires, the Group is entitled to purchase such equipment at a nominal consideration not exceeding RMB20,000 from BEH and/or its associates.

Sales and leaseback service

Pursuant to the Supplemental Agreement, the scope of the finance lease services to be provided by BEH and/or its associates under the Finance Lease Framework Agreement will be limited to direct leasing service only, since the Company intends to enter into separate sales and leaseback agreements in relation to the sales and leaseback services originally contemplated under the Finance Lease Framework Agreement. If any transactions under each separate sales and leaseback agreements to be carried falls under Chapter 14 or Chapter 14A of the Listing Rules, the Company will comply with the relevant requirements under the Listing Rules if applicable and make disclosures in relation to such transactions and any amendments to the terms of the sales and leaseback agreements as appropriate.

Revised annual caps: Pursuant to the Supplemental Agreement, the annual caps for the direct leasing transactions for the two years ending 31 December 2022 (the “**Revised Caps**”) will be increased to RMB2 billion and RMB3 billion, respectively.

LETTER FROM THE BOARD

The Supplemental Agreement shall become effective upon (i) being signed by the legal representatives or authorised representatives of BEH and the Company, and (ii) being approved at the general meeting of the Company, and will expire on 31 December 2022.

Save for the above amendments, all other terms and conditions of the Finance Lease Framework Agreement remain unchanged. For the principle terms and details of the Finance Lease Framework Agreement, please refer to the Announcement.

In respect of each finance lease, the relevant member(s) of the Group and BEH and/or its associates will enter into separate implementation contract(s). The terms of each implementation contract will be in line with the terms of the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), and each implementation contract shall be subject to and conditional upon the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) continuing to be in force.

(2) Implication of IFRS 16 (Leases) on the Direct Lease Services

The Company adopted, among others, International Financial Reporting Standards (“IFRS”) 16 (Leases) in its consolidated statement of financial position in connection with leases and finance leases with effect from the beginning of its accounting period on 1 January 2019.

Pursuant to the IFRS 16 (Leases), the Company recognises right-of-use assets at the commencement date of the lease period (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at the amount of cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. At the commencement date of the lease period, the Company recognises lease liabilities measured at the present value of lease payments that have not been paid. In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

Accordingly, under IFRS 16 (Leases), the Company will recognise the leased assets of relevant direct lease(s) representing its right to use the leased assets (except short-term leases and low-value leases), subject to the specific lease terms and conditions to be set out in each of the lease agreement.

LETTER FROM THE BOARD

(3) Historical Amounts and Proposed Revised Caps

The Company did not engage BEH and/or its associates for finance lease service during the two years ended 31 December 2019.

According to the FAQs on Notifiable and Connected Transaction Rules relating to Lease Transactions of Listed Issuers adopting HKFRS/IFRS 16 “Leases” (or similar accounting standards in other jurisdictions) issued by the Hong Kong Stock Exchange, the annual caps for direct leases under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) should be determined based on the total value of right-of-use assets relating to the leases to be entered into by the Company in the corresponding period. The table below sets out the historical amounts of the direct leasing services for the year ended 31 December 2020, the Existing Caps for each of the three years ending 31 December 2022 and the proposed Revised Caps for each of the two years ending 31 December 2022:

To maintain competitive advantages in the process of achieving “Carbon Peak and Carbon Neutral” (碳達峰及碳中和), the major competitors of the Company have announced the plan to install a considerable amount of equipment to increase their clean-energy generating capacity during the Fourteenth Five Year Plan of the PRC (十四五規劃). As the power generation business is a capital-intensive business and the development of the Group requires a lot of capital, in response to such fierce competition, the Company expects that there will be more direct lease arrangements with BEH and/or its associates in the next two years, as it is able to satisfy the Group’s demand of funds for project construction in a timely manner and avoid large amount of capital expenditure for the purchase of machinery equipment.

The Company expects that (i) in 2021, there will be three wind power plants construction projects involving direct lease arrangement with BEH and/or its associates with a total installed capacity of approximately 350MW, of which two projects are currently under construction and the remaining one has already been approved by the competent authorities; and (ii) in 2022, there will be four power plants construction projects (including three wind power projects and one photovoltaic power project) involving direct lease arrangement with BEH and/or its associates with a total installed capacity of approximately 700MW, of which one project has already been approved by the competent authorities. The amounts of the Revised Caps represent the estimated total value of right-of-use assets relating to the direct leases involving the abovementioned three power plants construction projects in 2021 and four power plants construction projects in 2022, respectively.

According to the Company’s annual reports, the consolidated installed capacity of wind power generation and photovoltaic power generation of the Group amounted to 5,709MW as at 31 December 2020 (4,470MW as at 31 December 2019 and 3,516MW as at 31 December 2018). The consolidated installed capacity of wind power generation and photovoltaic power generation of the Group as at 31 December 2020 and 31 December 2019 represented an increases of 1,239MW and 954MW as compared to that in the previous year, respective. Therefore, the Directors consider the above-mentioned possible increase of approximately 350MW and 700MW in the Group’s consolidated installed capacity of wind power generation and photovoltaic power generation under the direct lease arrangement is justifiable.

LETTER FROM THE BOARD

(5) Pricing Basis

As disclosed in the Announcement, the lease consideration consists of the principal amount and lease interests. The lease consideration will be determined by the Group and BEH and/or its associates after arm's length negotiations and with reference to the market price of the same type of financial leasing assets. When determining the pricing standard, to the extent practicable, management of the Company will take into account the rates of at least two similar and comparable transactions entered with or carried out by Independent Third Parties in the corresponding period of reference.

Cost in respect of such financing services of the Company (including relevant rent plus handling fees and excluding other costs may be saved according to favourable terms, such as deductible VAT) shall be not higher than the consolidated cost (including relevant rent plus handling fees and excluding other costs may be saved according to favourable terms, such as deductible VAT) incurred from similar transactions during the relevant period.

(6) Reasons for and Benefits of Entering into the Supplemental Agreement

As BEH and/or its associates have been providing financial lease services to the Group and has a thorough understanding of the operations and development needs of the Group, it is expected that the revision of the Existing Caps will facilitate the Group to continue to receive efficient financial lease services from BEH and/or its associates. Engaging BEH and/or its associates to provide the direct leasing services is to avoid large amount of capital expenditure for the purchase of machinery equipment. Through entering into the direct leasing transactions, the Group will expand its financing channels and methods. It also enables the Company to control financing risks and satisfy the Group's demand of funds for project construction in a timely manner.

LETTER FROM THE BOARD

(7) Internal Control Measures

To safeguard the interests of the Company and the Shareholders as whole, including the minority shareholders, the Company has adopted internal approval and monitoring procedures relating to the transactions under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), which include the followings:

, m a a n m a a a n s a n s

The finance management department of the Company (the “**Finance Management Department**”) is responsible for collecting and monitoring the information under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement). Prior to entering into individual lease contracts under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), the Finance Management Department will compare the major terms and financing costs associated with such arrangements to, to the extent practicable, at least two similar and comparable transactions entered with or carried out by Independent Third Parties in the corresponding period of reference. Officers handling the relevant matters shall seek approval from the head of the Finance Management Department and the chief financial officer of the Group, which is subject to the preliminary and final review by them based on the relevant rules and regulations.

P n m s a n m h a n s m

The Securities & Capital Management of the Company and other relevant operation departments of the Company are jointly responsible for conducting reviews on compliance with relevant laws, regulations, the Group’s internal policies and the Listing Rules in respect of both continuing connected transactions and connected transactions. They are also jointly responsible for evaluating the transaction terms under each underlying agreement of the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), in particular, the fairness and reasonableness of the pricing terms under each agreement, before each separate agreement under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) is entered into.

Independent non-executive Directors have also reviewed and will continue to review the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) and the transactions thereunder on a quarterly basis to ensure that the agreements are entered into on normal commercial terms and in the interests of the Company and its Shareholders as a whole.

LETTER FROM THE BOARD

The Finance Management Department will monitor the direct lease transactions under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) on a monthly basis. Meanwhile, the business planning department of the Company (the “**Business Planning Department**”) will be in close contact with the Group’s business teams responsible for direct lease so that the Business Planning Department will be able to reasonably anticipate expected transaction amount in advance.

Independent non-executive Directors and auditors of the Company will conduct annual review of the transactions under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) (including the rates and fees charged in respect of the transactions) and provide annual confirmations in accordance with the Listing Rules that the transactions are conducted in accordance with the terms of the agreements and the Group’s pricing policy measures, and to confirm if the price and terms offered are fair and reasonable and comparable to those offered by Independent Third Parties.

As the Group has adopted a set of effective internal control measures to supervise the continuing connected transactions of the Group, the Directors consider that the procedures in place will ensure such transactions be conducted on normal commercial terms and not prejudicial to the interests of the Company and its minority shareholders.

(8) Listing Rules Implications

As BEH directly and indirectly holds approximately 68.68% of the issued share capital of the Company as at the date of this announcement, BEH is a controlling shareholder of the Company and thus a connected person of the Company. Accordingly, the transactions between the Group and BEH and/or its associates constitute continuing connected transactions of the Company under the Listing Rules.

As the highest percentage ratio applicable to the annual caps for the direct leasing transactions under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) exceeds 5%, such transactions are subject to the reporting, announcement, circular (including independent financial advice), Shareholders’ approval and annual review requirements under the Chapter 14A of the Listing Rules.

In addition, as the highest applicable percentage ratio in respect of the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) exceeds 5% but is less than 25%, such transactions, if carried out, constitute discloseable transactions of the Company which are subject to the reporting and announcement requirements under Chapter 14 of the Listing Rules.

To comply with the requirements of the Listing Rules, the Independent Board Committee comprising all of the independent non-executive Directors has been formed to advise the Independent Shareholders on the proposed transaction under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) and the proposed Revised Annual Caps thereof.

Gram Capital has been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders on the fairness and reasonableness of the terms in respect of the direct leasing (including the Revised Annual Caps) contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), and whether it is in the interests of the Company and its Shareholders as a whole.

The letter from Gram Capital to the Independent Board Committee and the Independent Shareholders and the letter from the Independent Board Committee to the Independent Shareholders are included in this circular.

Independent Shareholders are advised to read this circular carefully for details of the continuing connected transactions before making decision as regards voting.

(9) The Board Confirmation

The Board (including the independent non-executive Directors) are of the view that the terms of the Supplemental Agreement are arrived at after arm's length negotiations between the parties, entered into in the ordinary and usual course of business of the Group and are of the view that (i4.2(thrhe)onti4o-ae,u2TD653Tc(The)-532M(The)n(the)-321.99(vie)25(w)-321.

25 November 2021

Dear Sirs,

CONTINUING CONNECTED TRANSACTIONS AND DISCLOSEABLE TRANSACTIONS

INTRODUCTION

We refer to our appointment as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the transactions contemplated under the Supplemental Agreement (the “**Transactions**”), details of which are set out in the letter from the Board (the “**Board Letter**”) contained in the circular dated 25 November 2021 issued by the Company to the Shareholders (the “**Circular**”), of which this letter forms part. Terms used in this letter shall have the same meanings as defined in the Circular unless the context requires otherwise.

On 16 October 2019, the Company entered into, among other things, the Finance Lease Framework Agreement with BEH, pursuant to which, BEH and/or its associates agreed to provide financial lease services, including direct leasing services, to the Group. The existing annual caps for the transactions under the Finance Lease Framework Agreement for the three years ending 31 December 2022 were previously set at RMB450 million per year (the “**Existing Caps**”).

Considering the current business needs of the Company for the direct leasing services, the Company expects that the Existing Caps will not be sufficient. On 28 September 2021, the Company entered into the Supplemental Agreement with BEH to revise the Existing Caps.

With reference to the Board Letter, the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) constitute discloseable and continuing connected transactions of the Company and are subject to the reporting and announcement, annual review and the independent shareholders’ approval requirement under the Listing Rules.

LETTER FROM GRAM CAPITAL

The Independent Board Committee comprising Mr. Huang Xiang, Mr. Chan Yin Tsung, Mr. Xu Daping and Ms. Zhao Jie (all being independent non-executive Directors) has been established to advise the Independent Shareholders on (i) whether the terms of the Transactions are on normal commercial terms and are fair and reasonable; (ii) whether the Transactions are in the interests of the Company and the Shareholders as a whole and are conducted in the ordinary and usual course of business of the Group; and (iii) how the Independent Shareholders should vote in respect of the resolution(s) to approve the Transactions at the EGM. We, Gram Capital Limited, have been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in this respect.

INDEPENDENCE

Gram Capital was engaged as the independent financial adviser to the independent board committee and independent shareholders of the Company in relation to (i) an update on discloseable and connected transaction; and continuing connected transactions and major transaction (details of which are set out in the Company's circular dated 29 November 2019); and (ii) voluntary conditional offer and proposed voluntary withdrawal of listing of H Shares (details of which are set out in the Company's composite document dated 31 December 2020). Save for the aforesaid engagements, there was no other service provided by Gram Capital to the Company during the past two years immediately preceding the Latest Practicable Date.

Notwithstanding the aforesaid engagements, we were not aware of any relationships or interests between Gram Capital and the Company, or any other parties during the past two years immediately preceding the Latest Practicable Date that could be reasonably regarded as hindrance to Gram Capital's independence to act as the Independent Financial Adviser.

Having considered the above, in particular (i) none of the circumstances as set out under the Rule 13.84 of the Listing Rules existed as at the Latest Practicable Date; and (ii) the aforesaid past engagements were only independent financial adviser engagements and will not affect our independence to act as the Independent Financial Adviser, we are of the view that we are independent to act as the Independent Financial Adviser.

BASIS OF OUR OPINION

In formulating our opinion to the Independent Board Committee and the Independent Shareholders, we have relied on the statements, information, opinions and representations contained or referred to in the Circular and the information and representations as provided to us by the Directors. We have assumed that all information and representations that have been provided by the Directors, for which they are solely and wholly responsible, are true and accurate in all material respects at the time when they were made and continue to be so as at the Latest Practicable Date. We have also assumed that all statements of belief, opinion, expectation and intention made by the Directors in the Circular were reasonably made after due enquiry and careful consideration. We have no reason to suspect that any material facts or information have been withheld or to doubt the truth, accuracy and completeness of the information and facts contained in the Circular, or the reasonableness of the opinions expressed by the Company and/or the Directors, which have been provided to us. Our opinion is based on the Directors' representation and confirmation that there are no undisclosed private agreements/arrangements or implied

LETTER FROM GRAM CAPITAL

understanding with anyone concerning the Finance Lease Framework Agreement and the Supplemental Agreement. We consider that we have taken sufficient and necessary steps on which to form a reasonable basis and an informed view for our opinion in compliance with Rule 13.80 of the Listing Rules.

The Circular, for which the Directors collectively and individually accept full responsibility, includes particulars given in compliance with the Listing Rules for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in the Circular is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or the Circular misleading. We, as the Independent Financial Adviser, take no responsibility for the contents of any part of the Circular, save and except for this letter of advice.

We consider that we have been provided with sufficient information to reach an informed view and to provide a reasonable basis for our opinion. We have not, however, conducted any independent in-depth investigation into the business and affairs of the Company, BEH, and each of their respective subsidiaries or associates, nor have we considered the taxation implication on the Group or the Shareholders as a result of the Transactions. Our opinion is necessarily based on the financial, economic, market and other conditions in effect and the information made available to us as at the Latest Practicable Date. Shareholders should note that subsequent developments (including any material change in market and economic conditions) may affect and/or change our opinion and we have no obligation to update this opinion to take into account events occurring after the Latest Practicable Date or to update, revise or reaffirm our opinion. In addition, nothing contained in this letter should be construed as a recommendation to hold, sell or buy any Shares or any other securities of the Company.

Lastly, where information in this letter has been extracted from published or otherwise publicly available sources, it is the responsibility of Gram Capital to ensure that such information has been correctly extracted from the relevant sources while we are not obligated to conduct any independent in-depth investigation into the accuracy and completeness of those information.

PRINCIPAL FACTORS AND REASONS CONSIDERED

In arriving at our opinion in respect of the Transactions, we have taken into consideration the following principal factors and reasons:

Information on the Company

With reference to the Board Letter, the Company is a clean energy company focusing on gas-fired power and heat energy generation, wind power, photovoltaic power, small to medium hydropower and other clean energy generation businesses, which helps claim the Company the titles of the internationally well-known clean energy enterprise, industry-leading clean energy brand and largest gas-fired power supplier in Beijing and the leading wind power operator in China.

LETTER FROM GRAM CAPITAL

Information on BEH

BEH is a limited liability company incorporated in the PRC and is principally engaged in the businesses of generation and supplying of electricity and heat, production and sale of coal and development of real estate. BEH is wholly owned by BSCOMC. BEH is the controlling shareholder of the Company.

Reasons for and benefits of the Transactions

With reference to the Board Letter, as BEH and/or its associates have been providing financial lease services to the Group and has a thorough understanding of the operations and development needs of the Group, it is expected that the revision of the Existing Caps will facilitate the Group to continue to receive efficient financial lease services from BEH and/or its associates. Engaging BEH and/or its associates to provide the direct leasing services is to avoid large amount of capital expenditure for the purchase of machinery equipment. Through entering into the direct leasing transactions, the Group will expand its financing channels and methods.

Pursuant to the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), cost in respect of such financing services of the Company (including relevant rent plus handling fees and excluding other costs may be saved according to favourable terms, such as deductible VAT) shall be not higher than the consolidated cost (including relevant rent plus handling fees and excluding other costs may be saved according to favourable terms, such as deductible VAT) incurred from similar transactions during the relevant period.

We also understood from the Directors that by using the direct lease transactions, the Group would be able to improve the initial cash flow of the projects and therefore ~~asst~~ the external financing stress of the Group.

Having considered the above reasons and that the Company expects that the Existing Caps will not be sufficient considering the current business needs of the Company for the direct leasing services, we concur with the Directors that the Transactions are in the interests of the Company and the Shareholders as a whole and the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) are conducted in the ordinary and usual course of business of the Group.

LETTER FROM GRAM CAPITAL

Principal terms of the Transactions

Set out below are the key terms of the Transactions, details of which are set out under the section headed “THE SUPPLEMENTAL AGREEMENT” of the Board Letter.

Date of Supplemental Agreement: 28 September 2021

Parties:

- (1) The Company; and
- (2) BEH

Finance lease services: **Direct leasing**

Pursuant to the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), in respect of the direct leasing service, as requested or instructed by the Group, BEH and/or its associates will provide financial leasing solutions to the Group for the purchase of equipment. BEH and/or its associates will make the payment for the equipment to the suppliers in accordance with the conditions set by the Group and charge the Group with the lease rental for such equipment according to the schedule.

Pursuant to the Supplemental Agreement, when the leasing period expires, the Group is entitled to purchase such equipment at a nominal consideration not exceeding RMB20,000 from BEH and/or its associates.

Sales and leaseback service

Pursuant to the Supplemental Agreement, the scope of the finance lease services to be provided by BEH and/or its associates under the Finance Lease Framework Agreement will be limited to direct leasing service only.

Revised annual caps: Pursuant to the Supplemental Agreement, the annual caps for the direct leasing transactions for the two years ending 31 December 2022 (the “**Revised Caps**”) will be increased to RMB2 billion and RMB3 billion, respectively.

The Supplemental Agreement shall become effective upon (i) being signed by the legal representatives or authorised representatives of BEH and the Company, and (ii) being approved at the general meeting of the Company, and will expire on 31 December 2022.

LETTER FROM GRAM CAPITAL

Save for the above amendments, all other terms and conditions of the Finance Lease Framework Agreement remain unchanged.

Pursuant to the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), the lease consideration consists of the principal amount and lease interests. The lease consideration will be determined by the Group and BEH and/or its associates after arm's length negotiations and with reference to the market price of the same type of financial leasing assets. When determining the pricing standard, to the extent practicable, management of the Company will take into account the rates of at least two similar and comparable transactions entered with or carried out by Independent Third Parties in the corresponding period of reference.

Cost in respect of such financing services of the Company (including relevant rent plus handling fees and excluding other costs may be saved according to favourable terms, such as deductible VAT) shall be not higher than the consolidated cost (including relevant rent plus handling fees and excluding other costs may be saved according to favourable terms, such as deductible VAT) incurred from similar transactions during the relevant period.

Upon our request, we obtained an individual finance lease (direct lease) contract entered into between the Group and a member of BEH (the “**2020 Contract**”) in 2020 with quotations from three independent third parties. As confirmed by the Directors, the aforesaid individual finance lease (direct lease) contract is the only one contract in respect of direct lease arrangement entered into between the Group and member of BEH from 1 January 2020 to the date of the Supplemental Agreement. According to the aforesaid documents, the cost of finance lease offered by members of BEH were not higher than those offered by independent third parties.

To safeguard the interests of the Company and the Shareholders as whole, including the minority shareholders, the Company has adopted internal approval and monitoring procedures relating to the transactions under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement). Details of the internal approval and monitoring procedures are set out under the section headed “Internal control measures” of the Board Letter. Having considered that there will be procedures for comparison with independent quotations prior to entering into individual lease contracts under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), we are of the view that the effective implantation of the procedures would help to ensure fair pricing of the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) according to the pricing policies. Having also considered our findings on the costs of individual finance lease contract as mentioned above, we do not doubt the effectiveness of the measures.

In light of the above, we are of the view that the terms of the Transactions are on normal commercial terms and are fair and reasonable.

LETTER FROM GRAM CAPITAL

Revised annual caps

The table below set out are (i) the Existing Caps; and (ii) revised annual caps for the two years ending 31 December 2022:

	For the year ended 31 December 2020 <i>/ ' m..... n</i>	For the year ending 31 December 2021 <i>/ ' m..... n</i>	For the year ending 31 December 2022 <i>/ ' m..... n</i>
Existing Annual Caps	450	450	450
The revised annual caps (the “Revised Cap(s)”) 2,000		2,000	3,000

With reference to the Board Letter, the Revised Caps for the two years ending 31 December 2022 are determined after taking into account of various factors, details of which were set out under the section headed “BASIS FOR THE REVISED CAPS” in the Board Letter.

As the Revised Caps represented significant increases as compared to the Existing Caps for the two years ending 31 December 2022, we conducted following analyses to assess the fairness and reasonableness of the Revised Caps:

- As advised by the Directors, power generation business is a capital-intensive business and the development of the Group requires a lot of capital.

The underlying asset of the proposed finance lease will be power plant machineries/equipment/parts.

- Upon our request, the Directors provided breakdowns of estimated contract values for each individual finance lease arrangement for FY2021 and FY2022, which will be further converted to right-of-use assets.

For FY2021, the Directors expected there will be three wind power plants construction projects with total installed capacity of approximately 350MW involving direct lease arrangement with BEH. Two of the projects were under construction (the “**Under Construction Projects**”) and the remaining one was approved (核准) (the “**Approved Project**”).

The Directors further provided us the equipment amounts and total investment amounts for the Under Construction Projects. According to the documents, we noted the amounts of power plant equipment and parts of each project. The estimated contract values of each individual finance lease arrangement of the Under Construction Projects are in line with the amounts of power plant equipment and parts of relevant projects. In addition, the implied wind power per installed capacity

LETTER FROM GRAM CAPITAL

finance lease amounts (calculated by estimated contract value of finance lease amounts over the installed capacity of such project) for the Approved Project is close to the implied wind power per installed capacity finance lease amounts of the Under Construction Projects.

Accordingly, we consider the estimated contract values for finance lease arrangement for FY2021 to be justifiable.

For FY2022, the Directors assumed that there will be four power plants construction projects (including three wind power projects and one photovoltaic power project) with total installed capacity of approximately 700MW involving direct lease arrangement with BEH.

According to the Company's previous annual reports, as at 31 December 2020, the consolidated installed capacity of wind power generation and photovoltaic power generation amounted to 5,709MW (as at 31 December 2019: 4,470MW; as at 31 December 2018: 3,516MW). The consolidated installed capacity of wind power generation and photovoltaic power generation as at 31 December 2020 and 31 December 2019 represented increases of 1,239MW and 954MW as compared to their respective previous year. Therefore, we consider the possible increase of 700MW in wind power generation and photovoltaic power generation to be justifiable.

Based on the estimated contract values of each individual finance lease arrangement with installed capacity of wind power generation, the implied wind power per installed capacity finance lease amounts for FY2022 was less than the implied wind power per installed capacity finance lease amounts of the Under Construction Projects (note: as the wind power generation in 2020, the implied wind power per installed capacity finance lease amounts was less than the implied wind power per installed capacity finance lease amounts of the Under Construction Projects in 2020). As advised by the Directors, the aforesaid lower amount was mainly taken into account the decreasing trend in wind turbines price from 2020. Therefore, we consider the estimated contract values for finance lease arrangement of wind power projects for FY2022 to be justifiable.

In respect of the anticipated photovoltaic power plants construction project involving direct lease arrangement with BEH in FY2022, we noted that the implied photovoltaic power per installed capacity finance lease amounts for FY2022 was higher than that of implied photovoltaic power per installed capacity finance lease amounts according to the 2020 Contract. As advised by the Directors, the aforesaid higher amount was mainly taken into account the increasing trend in the cost of major materials for the photovoltaic power assets from 2020.

Accordingly, we consider the estimated contract values for FY2022 to be justifiable.

LETTER FROM GRAM CAPITAL

- With reference to the Board Letter, pursuant to the IFRS 16 (Leases), the Company recognises right-of-use assets at the commencement date of the lease period (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at the amount of cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. At the commencement date of the lease period, the Company recognises lease liabilities measured at the present value of lease payments that have not been paid. In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

For our due diligence purpose, we enquired into the Directors the assumptions for the converting of the estimated cost of wind power and photovoltaic power equipment/parts into the Revised Cap (in terms of right-of-use assets). We consider the assumptions for the aforesaid conversion to be reasonable.

Based on the above factors, we consider that the Revised Caps for the two years ending 31 December 2022 to be fair and reasonable.

Shareholders should note that as the Revised Caps are relating to future events and were estimated based on assumptions which may or may not remain valid for the entire period up to 31 December 2022, and it does not represent forecasts of revenue to be recorded from the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement). Consequently, we express no opinion as to how closely the actual revenue, purchase or income to be incurred under the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) will correspond with the Revised Caps.

Listing Rules implication

The Directors confirmed that the Company shall comply with the requirements of Rules 14A.53 to 14A.59 of the Listing Rules pursuant to which (i) the values of transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) must be restricted by the Revised Caps for the period concerned under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement); (ii) the terms of the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) must be reviewed by the independent non-executive Directors annually; (iii) details of independent non-executive Directors' annual review on the terms of the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) must be included in the Company's subsequent published annual reports.

LETTER FROM GRAM CAPITAL

Furthermore, it is also required by the Listing Rules that the auditors of the Company must provide a letter to the Board confirming, among other things, whether anything has come to their attention that causes them to believe that the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) (i) have not been approved by the Board; (ii) were not entered into, in all material respects, in accordance with the relevant agreement governing the transactions; and (iii) have exceeded the Revised Caps.

In the event that the total amounts of the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) are anticipated to exceed the Revised Caps, or that there is any proposed material amendment to the terms of the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement), as confirmed by the Directors, the Company shall comply with the applicable provisions of the Listing Rules governing continuing connected transaction.

Given the above stipulated requirements for continuing connected transactions pursuant to the Listing Rules, we are of the view that there are adequate measures in place to monitor the transactions contemplated under the Finance Lease Framework Agreement (as supplemented by the Supplemental Agreement) and thus the interest of the Independent Shareholders would be safeguarded.

RECOMMENDATION

Having taken into consideration the factors and reasons as stated above, we are of the opinion that (i) the terms of the Transactions (including the Revised Caps) are on normal commercial terms and are fair and reasonable; and (ii) the Transactions (including the Revised Caps) are in the interests of the Company and the Shareholders as a whole and are conducted in the ordinary and usual course of business of the Group. Accordingly, we recommend the Independent Board Committee to advise the Independent Shareholders to vote in favour of the resolution(s) to be proposed at the EGM to approve the Transactions (including the Revised Caps) and we recommend the Independent Shareholders to vote in favour of the resolution(s) in this regard.

Yours faithfully,
